Mission: The mission of TCNS is to enhance the quality of culturally congruent, competent, and equitable care that results in improved health and well being for people worldwide.

Vision: The TCNS seeks to provide nurses and other health care professionals with the knowledge base necessary to ensure cultural competence in practice, education, research, and administration.

Philosophy and Values: Transcultural Nursing (TCN) is a theory based humanistic discipline, designed to serve individuals, organizations, communities, and societies. Human care and caring is defined within the context of culture. Culturally competent care can only occur when culture care values are known and serve as the foundation for meaningful care.

There is no cost for attendance. We offer special appreciation to Loyola University New Orleans for the use of the facilities and to the University of South Alabama for assisting us in the continuing education credits. We also offer great appreciation to the Zeta Gamma Chapter of Sigma Theta Tau Honor Society, for paying for our coffee and the treats in the bags and to the International Transcultural Nursing Society for supporting our chapters’ endeavor.
