

## Review Questions, Streams, Part II

1. How does river's valley shape change as you go from the upper to the middle to the lower part of a stream? Draw a series of 3 cross sectional profiles (NOT aerial views) that show the shape changes.
2. What is an oxbow lake? What part of a stream is it found in?
3. Draw a braided stream channel. Draw a meandering stream channel. What factors are associated with each pattern?
4. What is a natural levee? What part of a stream is it found in? How is it formed?
5. What is a fluvial terrace?
6. What is a delta?
7. What is an alluvial fan?
8. Compare and contrast a delta and an alluvial fan.
9. What is a floodplain?
